

## **Our level system**

Our program has a level system. Each client is encouraged to progress through four levels to discharge. LTAI staff monitors the youth progress on level every 2 weeks. Every two weeks the administrative staff is available for a level meeting. These meetings are initiated by the client's petition for a level elevation. During the level meeting LTAI administrative team makes a decision to maintain the youth on present level, regress the youth to the previous level or elevate the youth to the next level. LTAI staff reviews youths documented behavior for the previous 2 week period as well as the youth's presentation during the level meeting.
